

DD/A/ODP WEEKLY REPORT
Week of 5-12 August 1977

I. Major Activities During the Past Week: ☐

25X1

A. Support to OC ☐

☐ - Agency worldwide cryptographic material accounting and distribution system. Our proposal for supporting the development of software to run on Office of Communications' IBM System III mini-computer located ☐ will be delivered to the customer this week.

B. Support to OCR ☐

☐ Automation of the OCR directories. The ☐ has been published. The software that will process Spanish entries for the ☐ has been completed. We are now testing the software to process ☐ names and additional formatting options such as divider pages, divider page footnotes, etc..

C. Support to OSO ☐

☐ Digital tape conditioning conversion. We have forwarded to OSO/SAD a project plan for their concurrence. This plan defines controls for a major effort for the development of production software to process PCM ☐

D. Support to OTR ☐

☐ A system for preventative maintenance for Office of Training. The customer has reviewed the system requirements, input menus, and reports for the AEMMS System which is currently being implemented for HEB/RECD/OL. The informal response is that the AEMMS System, with some modifications and installation of a 132 position printer, will fulfill other requirements. The formal reply is being returned through appropriate channels. The printer requirements will be discussed with Processing. ☐
